ALAPPUZHA

Alappuzha is a Land Mark between the broad Arabian sea and a network of rivers flowing into it. In the early first decade of the 20th Century the then Viceroy of the Indian Empire, Lord Curzon made a visit in the State to Alleppey, now Alappuzha. Fascinated by the Scenic beauty of the place, in joy and amazement, he said, "Here nature has spent up on the land her richest bounties". In his exhilaration, it is said, he exclaimed, "Alleppey, the Venice of the East". Thus the sobriquet found its place in the world Tourism Map. The presence of a port and a pier, criss-cross roads and numerous bridges across them, a long and unbroken sea coast might have motivated him to make this comparison.

Kuttanad:

Kuttanad, called the rice bowl of Kerala because of its wealth of paddy crops, is at the very heart of the backwaters. The scenic countryside of Kuttanad with its shimmering waterways also has a rich crop of banana, cassava and yam. This is perhaps the only region in the world where farming is done 1.5 to 2 m below sea level. Inland waterways which flow above land level are an amazing feature of this region.

Alappuzha Beach:

This is one of the most popular picnic spots in Alappuzha. The pier, which extends into the sea here, is over 137 years old. Entertainment facilities at the Vijaya Beach Park add to the attractions of the beach. There is also an old lighthouse which is greatly fascinating to visitors.

KBK - Krishnas Brindavana Kuteeram is a home stay property situated just a KM away to the Cochin airport and 4 KM to Kalady. It is well maintained, rooms are spacious, clean and hygienic. The landscape with traditional trees / plants are highlight of the property.

KBK is an amazing place, situated only three minutes from the airport. It has eye pleasing backdrop of lush green field, one can easily call it a home away from home. I was really impressed with the beautiful architectural design which was made keeping vastu in mind. Very well maintained grounds with some rare plantation and fantastic service was icing on the cake. I will definitely recommend it to my family and friends....

IDUKKI-MUNNAR

Munnar, the famed hill station of south India, is a romantic locale where natural beauty is everywhere to visit, explore and to enjoy. Munnar is situated at the confluence of three mountain streams - Muthirapuzha, Nallathanni and Kundala - and the word 'Munnar' means three rivers in Malayalam. Situated about 1600m above sea level, the hill station had been the summer resort of the British Government during the colonial era. Imprints of the colonial past stand tall in the Munnar town in the form of English country cottages.

Virgin forests, savannah, rolling hills, scenic valleys, numerous streams, huge splashy waterfalls, sprawling tea plantations and winding walkways are all part of the great holiday experience on offer for a traveler to Munnar.

Munnar is also known for Neelakurinji, a rare plant which flowers only once in twelve years. The 'kurinji season' in Munnar is a magnificent sight when the hills and valleys get bathed in the blue of the Neelakurinji blooms.

KANNUR

Kannur is most renowned for the Theyyam performances in its temples. This magnificent art form plays an integral part in the culture of this Northern Kerala district. Formerly known as Cannanore, Marco Polo christened it a 'Great Emporium Of Spice Trade'. Kannur has, since time immemorial, been hailed as an influential sea port. Legend has it that it had interactions and trade relations with the rest of the world since the time of King Solomon to the Greeks, Arabs and Romans. It has a plethora of forts, temples, beaches and wildlife sanctuaries that regularly attract visitors. Major festivals and events are held throughout the year and this is among the best places in Kerala to spend your vacation in.

I am Aram Paul and VINI'S Farm was a surprise gift to my wife, Vinita, for her birthday. She did not have any clue till I took her to our farm .

WHY FARM AND WHY VINI'S FARM?

Lots of people have influenced me to create this farm.

It includes my Dad, CJ Paul IFS, who was a Conservator of Forests. He loved nature and grew food organically in all the places he was posted. I grew up in tune with nature, with him.

KOZHIKODE

Kozhikode is situated in southern India between the Western Ghats and the Arabian Sea, Kozhikode has been attracting travelers from antiquity. The city is also known by its Anglicized name, Calicut.

Lured by the spice trade, Phoenicians, Arabs and Chinese headed for its shores. When Vasco da Gama landed on its shores in 1498, he paved the way for the Dutch, the French and later the English. As the major trading point of eastern spices, **Calicut was known as the 'City of Spices'**.

To avenge the insult, Valluvanad Kings used to send an elite suicide squad called the Chaver Pada to assassinate the Samoothiri. In May 1498, Vasco da Gama arrived at the head of a naval fleet, opening a new chapter in history. The British extended their sway over Kozhikode and rest of Malabar after they defeated Tipu Sultan of Mysore.

MALAPPURAM

Bounded by the Nilgiris hills on the East and the Arabian Sea on the west, the district of Malappuram literally the land atop the hills, is remarkable for its unique natural beauty. Perched among the undulating hills and the meandering rivers that flow to reach the coconut-fringed seacoast, the land conceals a unique and eventful history.

Photo Chaliyar Mukku

The hill country also contributed much to the cultural artistic traditions of the state. The mosques and temples of the land are known for their spectacular festivals. The land of great poets and writers, political and religious leaders, the district has carved a unique place of its own in the history of Kerala

Home to the khilafath movement and the mappila revolts, which questioned the British authority in India, Malappuram was the military headquarters of the zamorins of Kozhikode since ancient times.

The wooded highlands of the Western Ghats on the eastern and north-eastern borders provide Thiruvananthapuram with some of its most enchanting picnic spots. A long shoreline with internationally renowned beaches, historic monuments, backwater stretches and a rich cultural heritage make this place a much sought-after tourist destination. Clean, fresh and green, **Thiruvananthapuram, the capital of Kerala**, is one of the most beautiful cities in the country. Referred to by destination. Cheraman Juma Masjid, built in 629CE by Malik Deenar, is now set to reopen after renovation. The mosque is in Kerala's Methala, and will be a part of the famous Muziris Heritage Tourism circuit. It is reported that the renovation work at the mosque will soon be over. The famous mosque is the first mosque in India and is the oldest in the sub-continent. It is of immense heritage value, and the reopening is eagerly awaited. The old mosque is much-loved for its Kerala style of architecture and makes for a very interesting specimen. It is believed to have been destroyed by the Portuguese in the past. Previously, it was renovated in 1984 as well. The current innovation has costed around INR 1.14 crores and was aimed at retaining the original woodworking. Clay tiles have also been used for the roof to tune the structure to typical Kerala architectural values. Its renovation has taken a mammoth 30 months!
